• The advantage of stone plastic floor

SPC flooring environmental performance is much better than that of laminate flooring, no formaldehyde emission; its material is recyclable and environment. SPC flooring provides superior water & erosion resistance let you install especially in high moisture areas, including bathrooms, kitchens, basement and laundry rooms, it is ideal choices for residential use. It is fire retardant and with high heat resistance compared with solid wood or laminated flooring.

Unilin Click Installation

Adopting UNILIN locking system, SPC Flooring installation is easier and faster, flooring planks lay together without glue. Tight & even interlock technology avoids crash of edges and water leakage, protects for a lifetime of beauty. 4-side beveled edges are available to enhance three-dimensional feel and increase its realistic texture.

SPC flooring environmental performance is much better than that of laminate flooring, no formaldehyde emission, its material is recyclable and environment. SPC flooring provides superior water & erosion resistance let you install especially in high moisture areas including bathrooms, kitchens, basement and laundry rooms, it is ideal choices for residential use. It is fire retardant and with high heat resistance compared with solid wood or laminated flooring.

Thickness	3.5, 3.8, 4, 4.5, 5, 5.5, 6, 6.5, 7, 8(mm)		
Wear Layer	0.3mm, 0.5mm, 0.7mm		
Dimensions	150*912mm(6''*36'')	183*1220mm(7''*48'')	230*1220mm(9''*48'')
Backing Layer	100% new material		
Edge Detail	EVA, IXPE, Cork, etc.		
Surface Treatment	Squared edge & Beveled edge available		
Surface Texture	UV Coating		
	Wood Grain	Stone Pattern	Orange Peel
