Elevate Every Space!

Quality, Above All!

WALL DECORATIVE PANEL

*Anti-Collision Board & Bamboo Wood Veneer
& Bamboo Charcoal Wood Veneer

www.aesthedge.com

Shandong Compass Decor Material Co.,Ltd

In the past ten years of development, Aesthedge has always firmly adhered to technological innovation and environmental protection as the core principles. With fearless courage and resolute actions, it actively responds to market changes, overcomes numerous difficulties, and becomes an industry leader.

Aesthedge is located in Linyi City, Shandong Province in the east of China. It is a shining brand under COMPASS GROUP. The company is dedicated to the production and research and development of various decorative materials.

*The Aesthedge product has obtained professional institutional certifications including ISO9001 certification, GCC certification, CE certification, China CTC Children's Safety Level Certification, ENF-level & Flame Retardant B1-level certification, etc.

Aesthedge

Meet Sustainability Goals Your Way

High standard production, and testing.

We have a modern production base covering an area of 60,000 square meters, equipped with advanced equipment and perfect detection facilities. A team of more than 600 professionals infuses soul into products with their superb skills and rigorous attitudes. We have more than 1,000 high-quality products covering various styles and uses.

We strictly control the quality of raw materials to meet environmental protection standards and quality requirements. We provide customized production, efficient warehousing and logistics, and perfect after-sales service to ensure the efficient operation of the supply chain and provide customers with a worry-free shopping experience.

Cut Carbon.

Leading-edge solutions that reduce carbon across a product's entire lifecycle:

1. Most comprehensive range of low-embodied carbon solutions.
2. By concentrating on embodied carbon, we offer tailored solutions to reduce the entire project's environmental footprint.
3. Strongly dedicated to its sustainability objectives, Aesthedge continually strives to innovate and develop new eco-friendly solutions

Cut the total environmental footprint of projects by choosing advanced solutions from the most extensive range of low-embodied carbon wall products, which deliver carbon savings throughout the full lifecycle of each product.

Anti-Collision Board

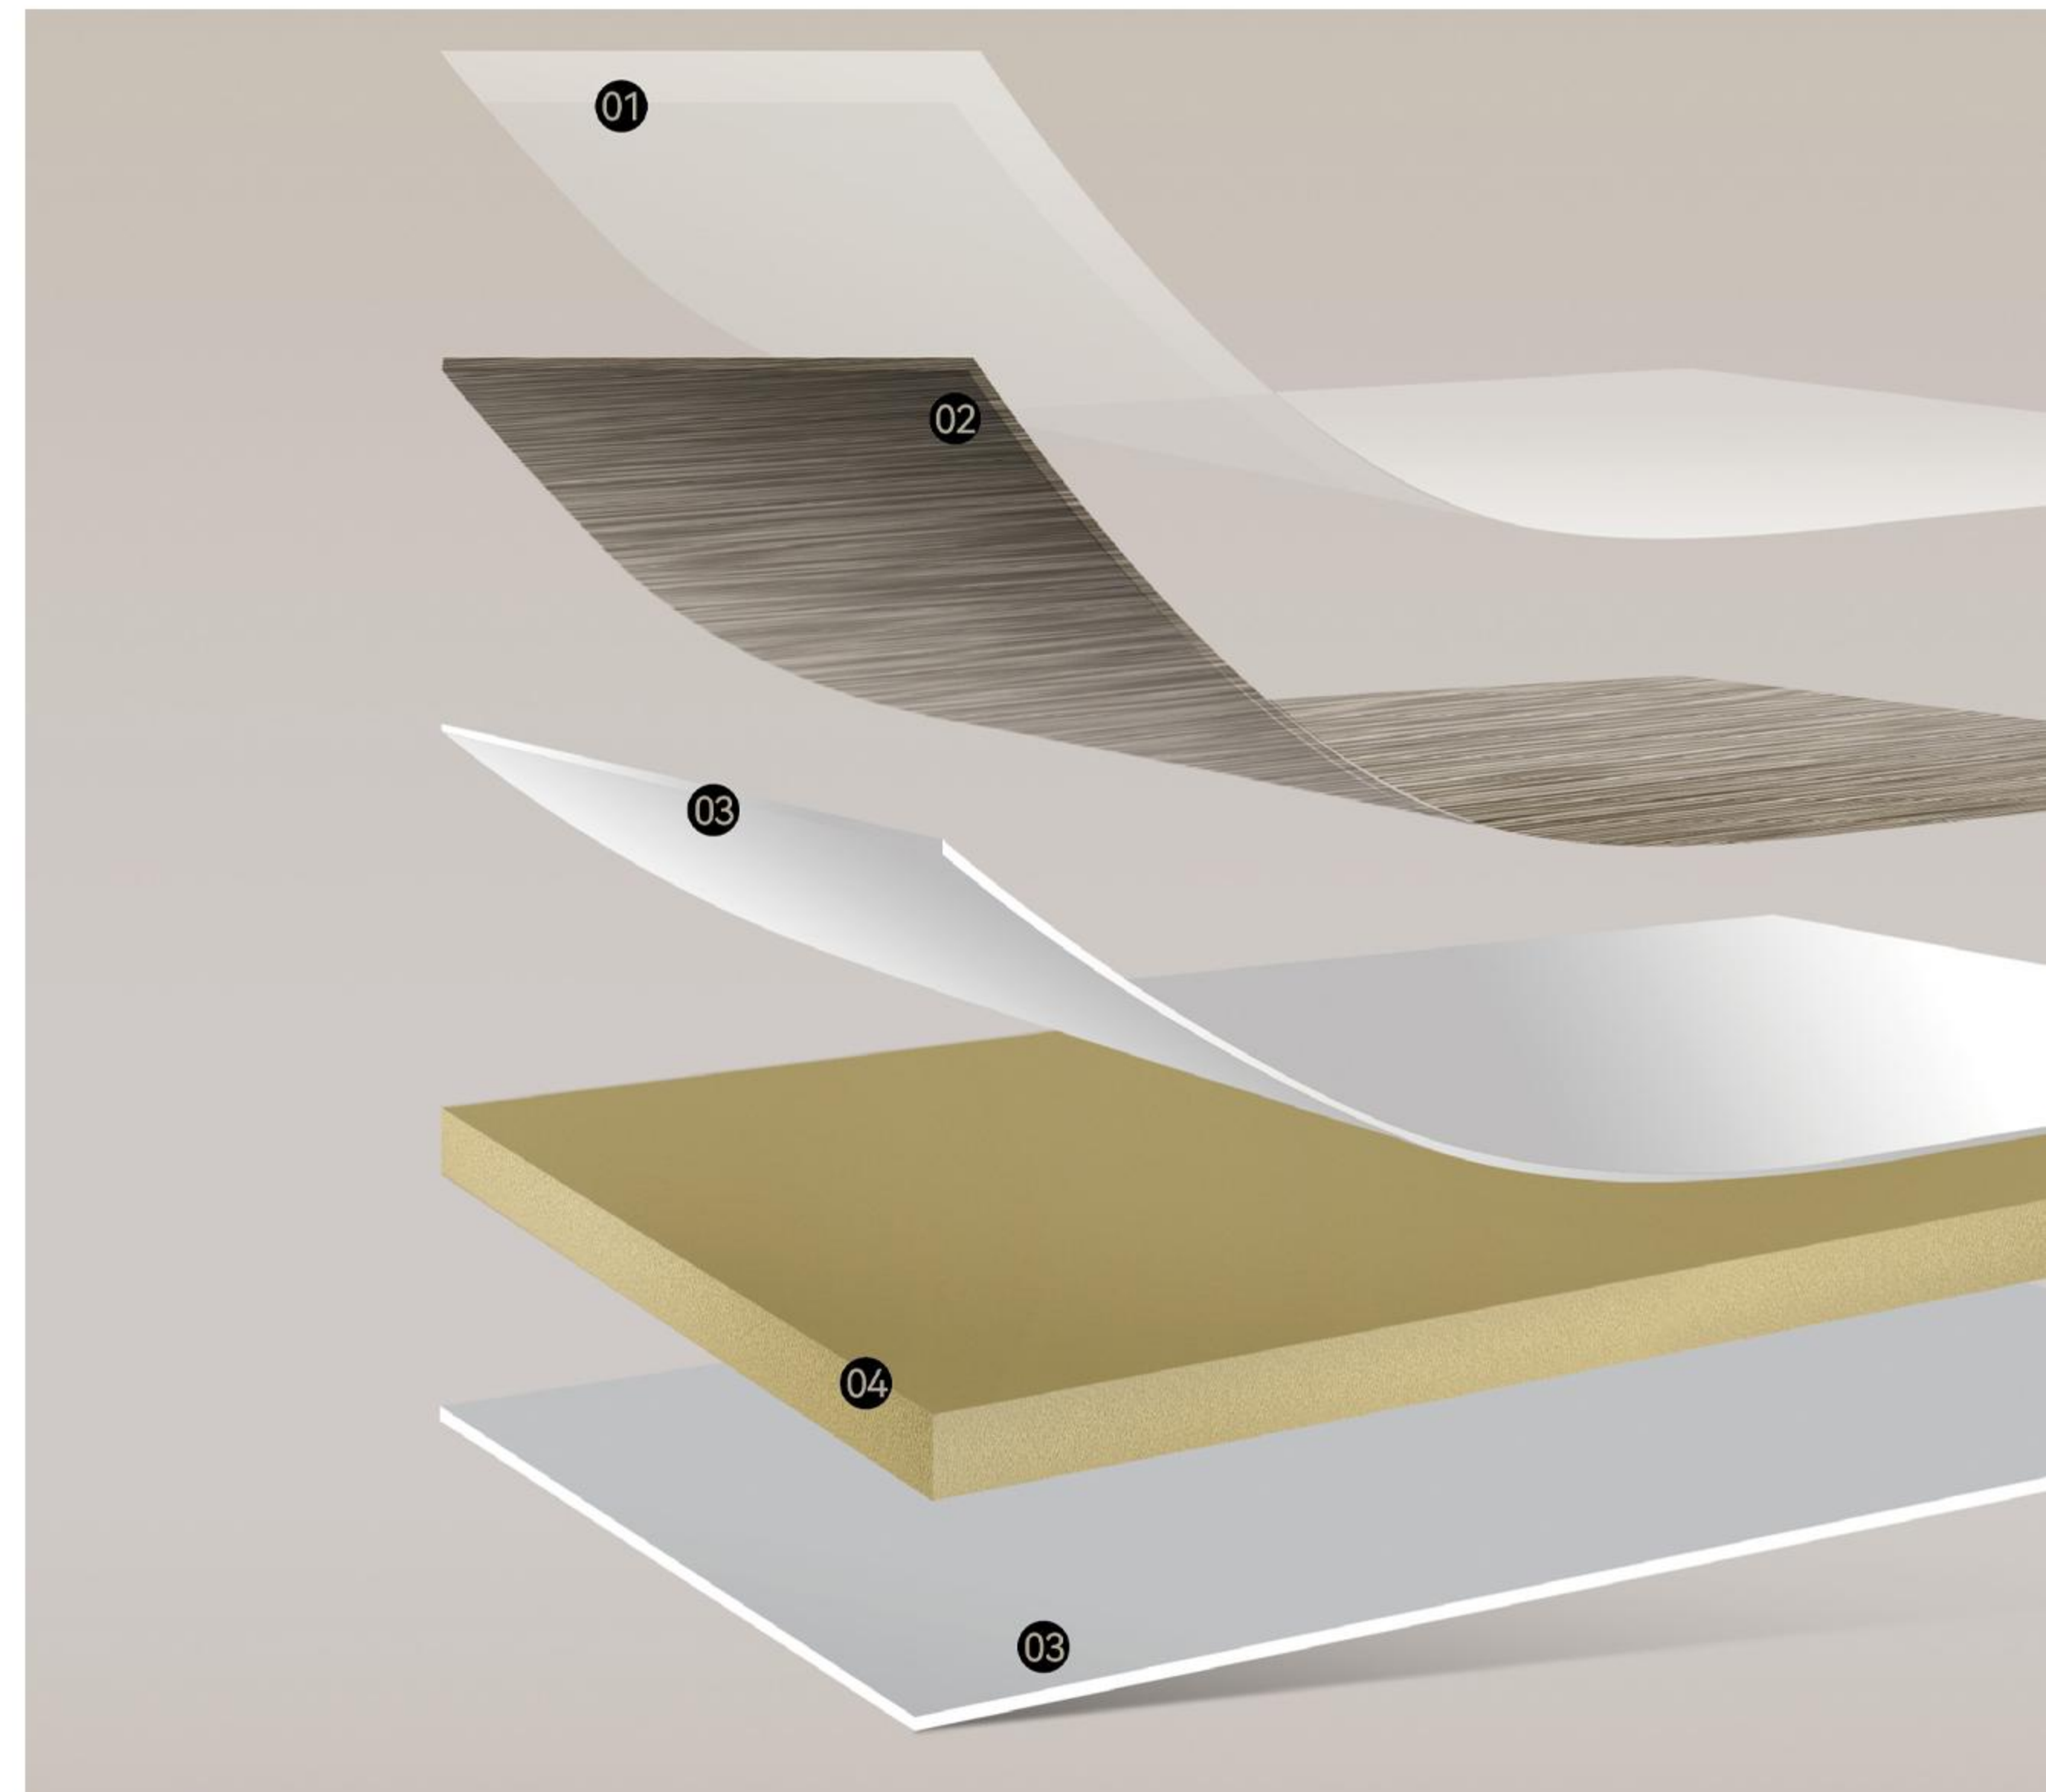

Material	Size	Ep rating	Fire rating	Advantage
High hardness SPC & Bamboo Charcoal Fiber	width: 1220mm length: 2440/2600/2800 3000/6000mm/Customizable thickness: 5/8mm	ENF	B1	Impact Resistance & Deformation Resistance & Bend Plasticity

Aesthedge

High strength composite materials

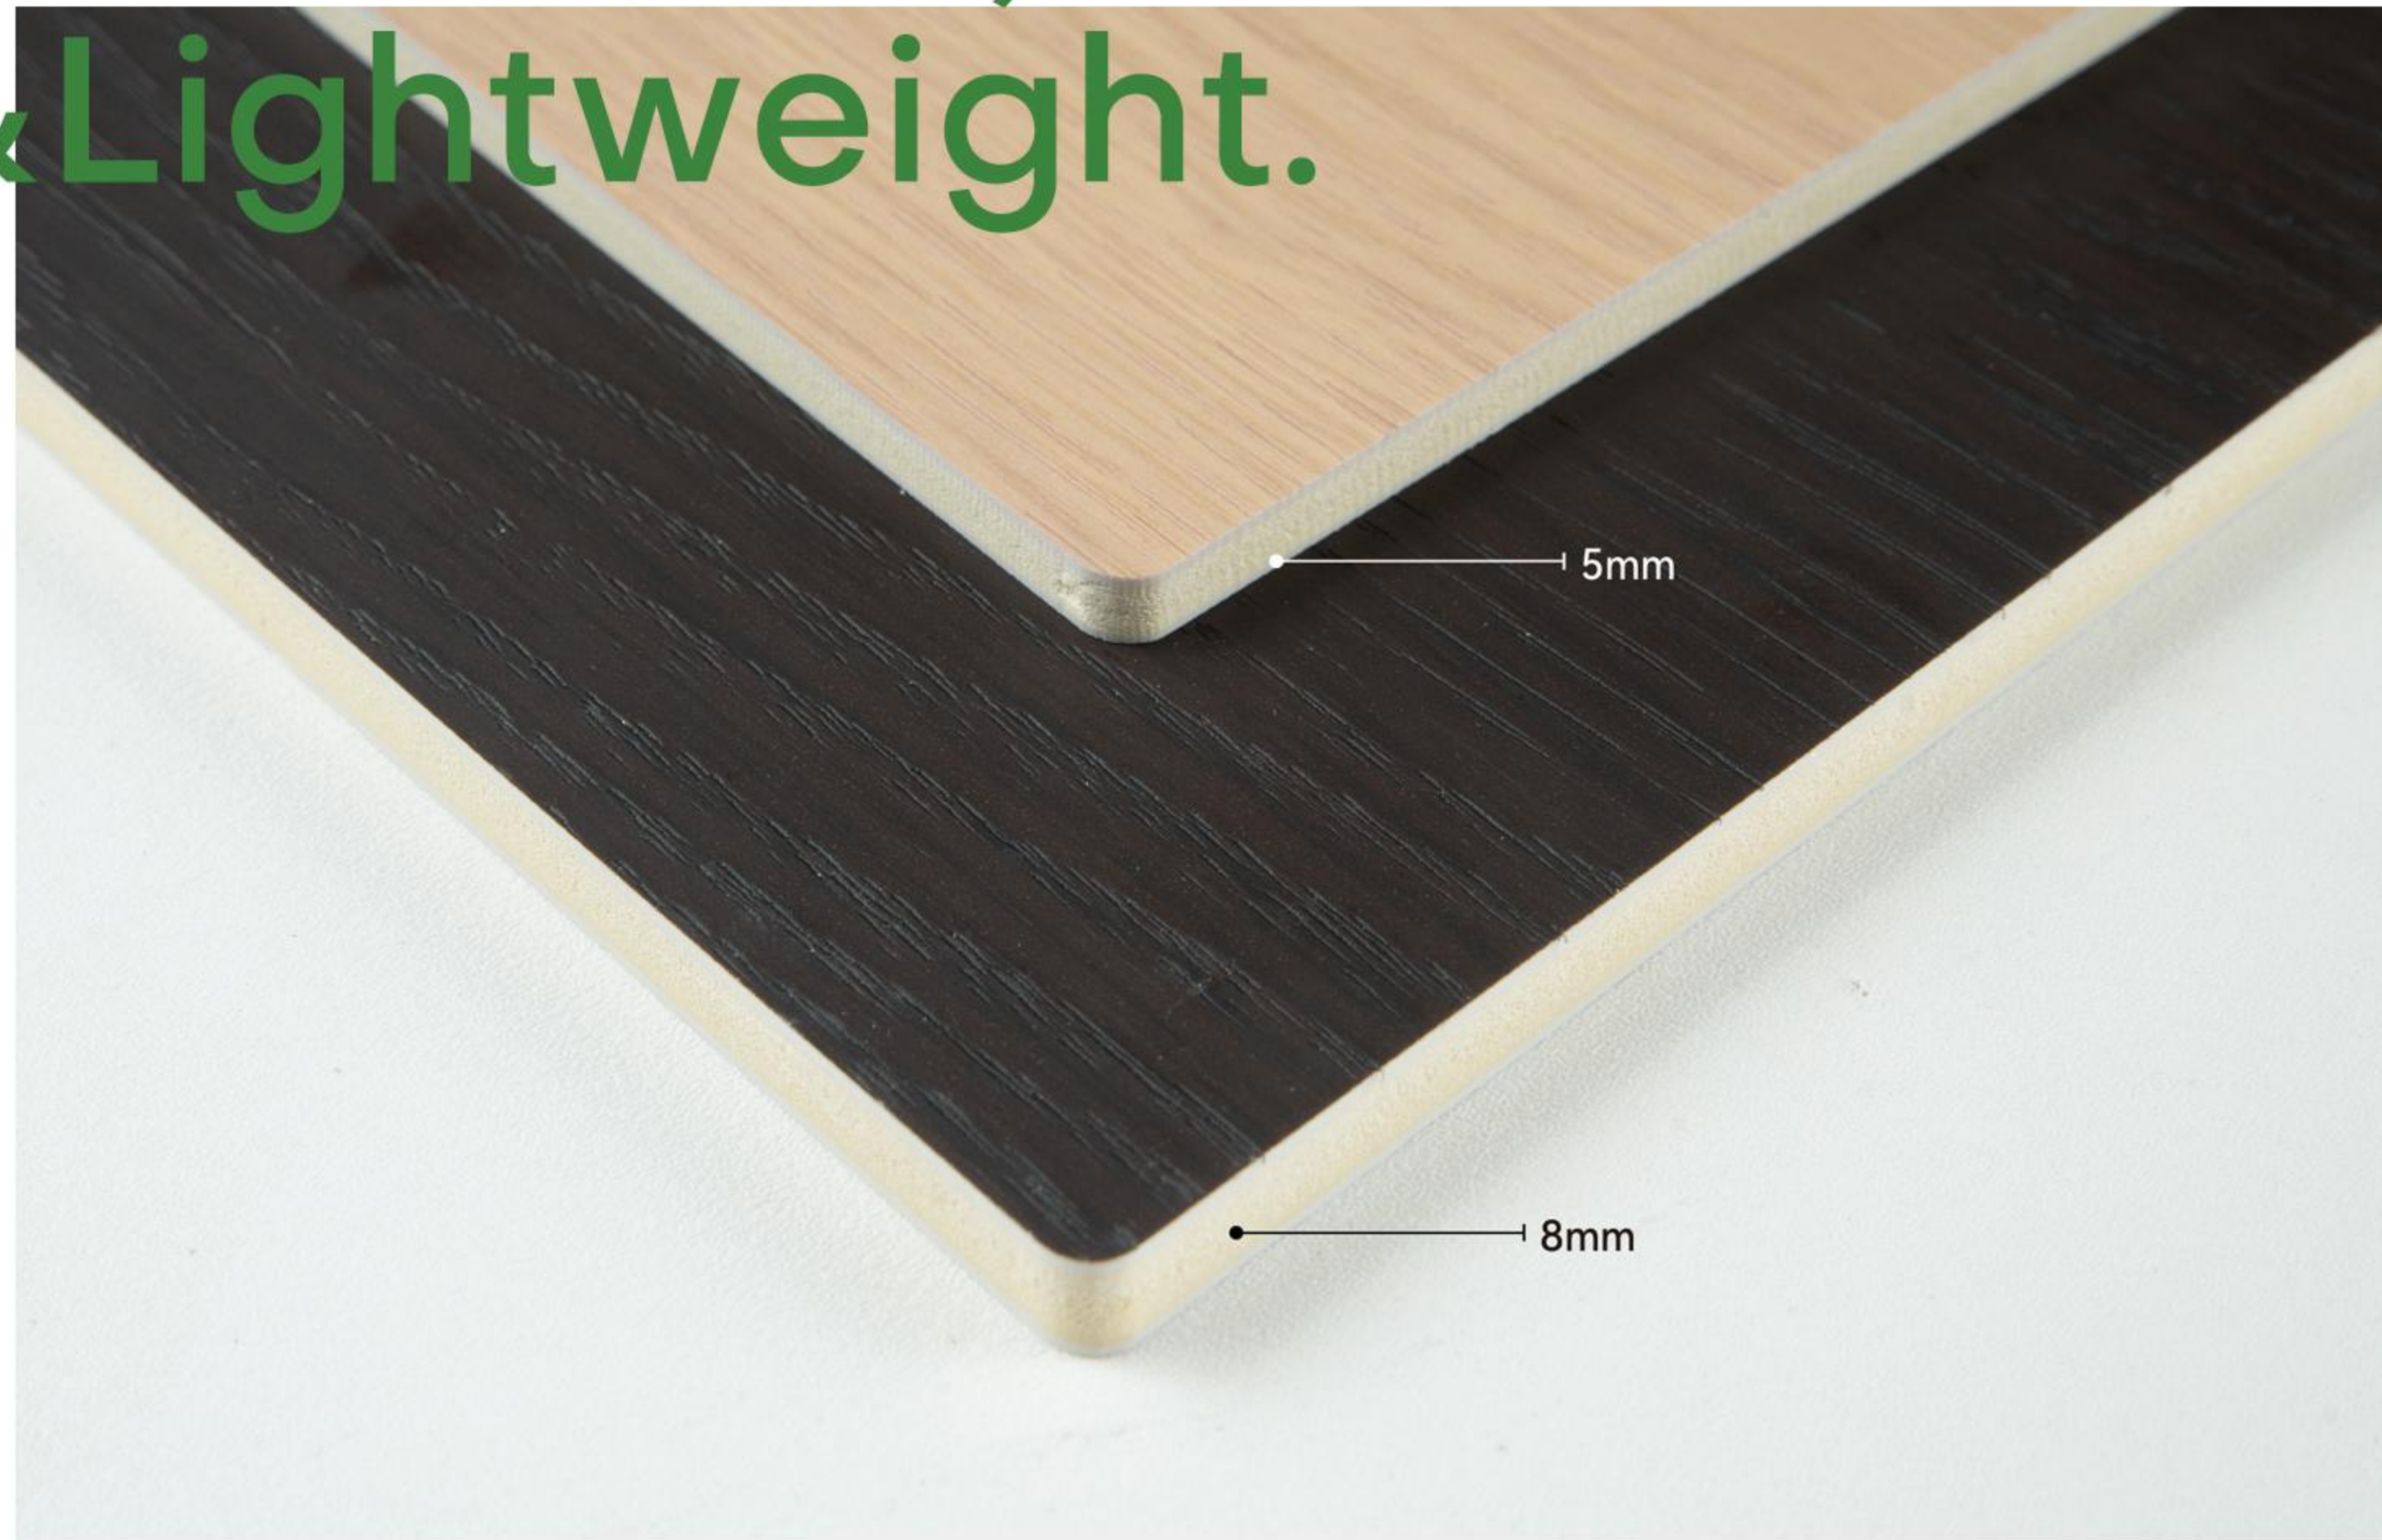

Product structure

- 01.Stain & Scratch Resistant Layer
- 02.Decorative Layer - Design Patterns
- 03.Impact Resistance Layer - Hardness SPC
- 04.Core Layer - Bamboo Charcoal Fiber

Strong Simulation, & Lightweight.

The product adopts the latest anti-collision technology

Product real shots

Strong resistance to deformation
Not afraid of heavy blows

Bendable Shapeable

WPC coextrusion layer & Bamboo Charcoal Fiber	width: 1220mm length: 2440/2600/2800 3000/6000mm/Customizable thicjness: 5/8mm	ENF	B1	Wate proof & Bend Plasticity

Aesthedge

New choices for interior decoration materials!

Product structure

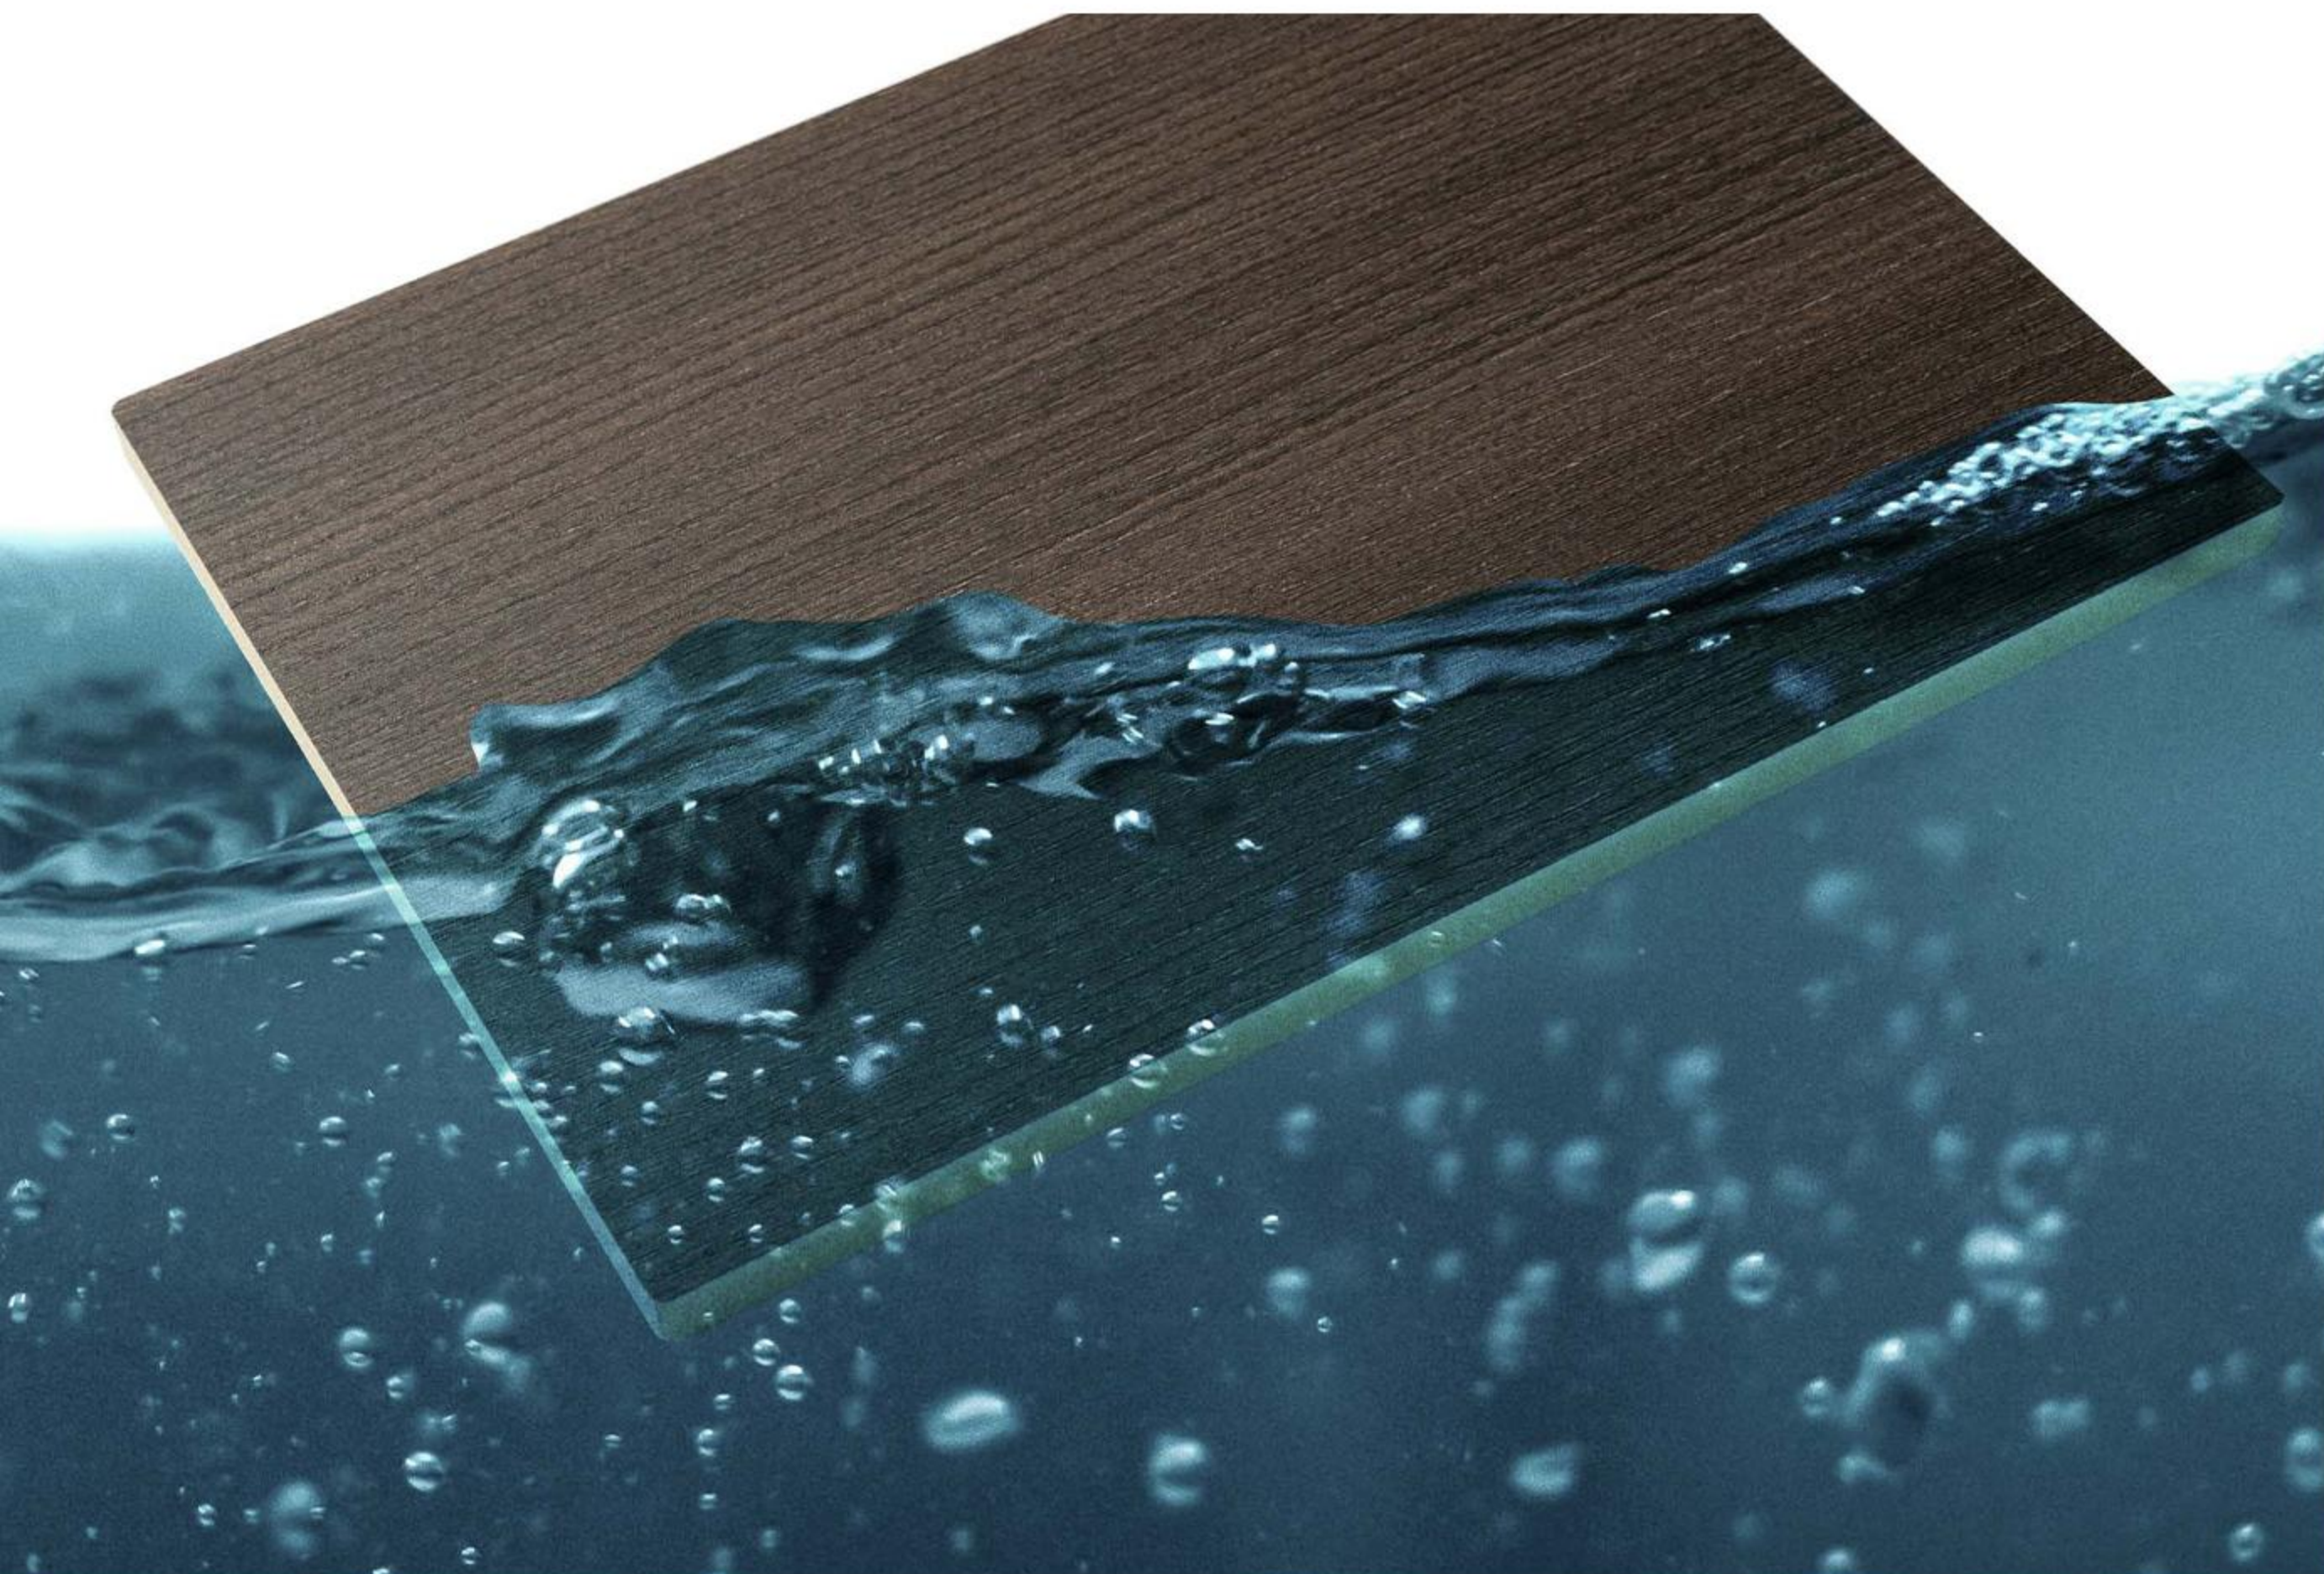

- 01.Finish Stain Resistant Top Layer
- 02.Finish Printed Middle Layer
- 03.Water-Anti-Penetration Bottom Layer
- 04.Particle-Free PUR Layer
- 05.High-Strength Crystal Co-Extruded Layer
- 06.Carbon Fiber Layer

Water proof Simulation, & Lightweight.

The product adopts
the latest waterproof
technology
